Find a Project under Section 106 Review using ProjectPATH

ProjectPATH is the online searchable database created by PennDOT and Preservation Pennsylvania that allows you to find and research properties or resources that have been reviewed under Section 106.

Where is the ProjectPATH searchable database?

Go to http://search.paprojectpath.org/ OR to our homepage at http://paprojectpath.org/ then click on “Search for a Project”

MPMS is unique number given by PennDOT to each Statewide Transportation Improvement Plan (STIP) project planned for the next four years.

A list will of current projects will appear.
Select your desired project by clicking anywhere on the description line. Continue to the next page to learn more about the Project Details page!

HINT: anywhere you see this small question mark you can click it for more information.
You’ve found the project record!
From this page you can find the **Project Details**, **Project Timeline**, and the **Posting Details Tab**
